DETAILED ACTION

Response to Amendment

1. This action is in response to the amendment filed 10/19/2007. Claims 1, 2 and 4 have been amended; claims 5, 7 and 12-13 have been cancelled; claims 16-19 have been added.

Response to Arguments

2. Applicant's arguments, see the last paragraph of page 7, filed 10/19/2007, with respect to the rejection of claim 1 under 35 USC 103(a) have been fully considered and are persuasive. The rejection of claim 1 has been withdrawn. However, the amendment has necessitated new grounds of rejection and objection that are not based on prior art.

Claim Objections

3. Claims 1, 3 and 18 are objected to because of the following informalities: as a result of the encrypting step, the second character string becomes the encrypted second character string. Therefore, "the second character string" in the wherein clause (claims 1, 3 and 18) and in the storing step (claims 1 and 18) should be changed to "the encrypted second character string". Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-4, 6 and 16-19 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. Regarding claims 1 and 18, the omitted steps are: providing an index value for every character and converting encrypted index values to character (fig. 2, steps S1, S6; Specification, page 8, lines 22- 32 and page 10, lines 20-24).

Claims that are not specifically addressed are rejected by virtue of their dependency.

Allowable Subject Matter

6. Claims 1 and 18 would be allowable if rewritten or amended to overcome the rejection under 35 U.S.C. 112, 2nd paragraph, and the objection set forth in this Office action.
